

DIGI BINDER EXTRA

20" x 18" Largest Lay-flat Book

Digi Binder Extra is designed by Kisun with the accumulated know-how and innovative technology. Hotmelt gluing is very useful for back to back binding silver halide(photographic) paper or synthetic paper that sticks with water-based glue. Digi Binder Extra is the latest innovation to achieve high performance, superior lay-flat quality and variable size from max. 20"x18" to min. 7"x5" with spine thickness 50mm. You can be satisfied more than your expectation and Digi Binder Extra will link your photo book business to the success.
